

TECHNICAL SHEET MAIZE – EMPEROR TL

EMPEROR TL IS THE QUICKEST MATURING (90CRM) MAIZE VARIETY ON THE MARKET AND A SILAGE SPECIALIST

Emperor TL is one of our range of Tender Leafy (TL) hybrids that are exclusively distributed by HSR Seeds in Australia. TL Hybrids are silage specific and have attributes not found in conventional maize hybrids. They have more leaves above the cob, a lower cob set, and the kernels are high starch, soft and floury for higher digestibility.

WHO SHOULD GROW EMPEROR TL ?

Growers seeking a very quick maturing silage corn that will provide the highest quality of silage. Mainly the South East Coast of Australia, and southern inland – especially the late plant.
