

ZHY1027OP

SH2 SUPERSWEET YELLOW

- ZHY1027OP:** is an early season, fast maturing processor, for start up or catch up yellow supersweet, with superior cylinder, colour and kernel style for this maturity.
- **Field Performance:** Short season quick maturity. Strong vigor. High yield of very cylindrical uniform, well tip filled ears on a strong plant for its maturity. Good disease resistance. Wide harvest window.
 - **Processing Performance;** Suitable for freezing and canning. Cut kernel and cob. Excellent colour with good eating quality. Medium petite kernels for this maturity. Excellent uniform cylinder with very good tip fill. Will run well through plants.
 - **Management Points:** Test for yield early against standards. Has an improved cob, color and kernel style for this maturity.
 - **Maturity Slot:** Test in early plantings and later plantings. Has shown wide adaptation.

Plant Characteristics									Disease Resistance							Herbicide Tolerance
