

NEW

Brutus

New **Brutus** from HSR Seeds is a 105 day soft feed/silage corn, **Brutus** is a hybrid that has extremely high water use efficiency and exceptional yield for its maturity. It has an Early-season growth habit that allows versatility and flexibility in sowing and harvest. It is designed for the maize grower who wants a crop that stands well, has a 'Brut' of cob, with an excellent silage yield/quality or high yielding stockfeed maize grain.

Best grown from all over various environments throughout Australia and NZ.

Growers looking for a reliable, high yielding, excellent disease tolerant and standability package in an early-maturing maize hybrid, should be growing **Brutus**. Producing high quality "starchy" feed grain and silage yields. Farmers that want a stable hybrid that has performed exceptionally well across quicker environments in trialling should look at **Brutus**.

Plant Type:
105 Days CRM Grain or Silage
Yield Potential:
Excellent yields with unbelievable disease package.
Plant Height:
Tall plant with large root structure for high WUE.
Grain Type:
Dent x Dent highly digestible feed grain. High Starch content in grain and silage.
General Comments:
Solid yields under various conditions.

PLANTING POPULATIONS

Dryland below 600mm	Dryland above 600mm	Full Irrigation
20,000 TO 35,000 (SILAGE 30-45 K) ESTABLISHED	35,000 TO 70,000 (SILAGE 45-85 K) ESTABLISHED	70,000 TO 95,000 (SILAGE 85-100 K) ESTABLISHED
