

# Maximus

Very highly productive HSR Seeds 102 day soft feed/silage corn. *Maximus* is a hybrid that produces a large bulky plant and has a root system to match, and has extremely high water use efficiency. A quick feed maize that is designed principally for the grower who wants a large robust plant with an excellent grain yield or top yielding/quality corn silage.

Best grown from Victoria through to Tasmania and Western Australia, under high populations and growing inputs.

Growers seeking a reliable, high yielding, excellent standability and disease tolerant package in a quick-maturing maize hybrid, should be growing *Maximus*. Producing high quality 'starchy' feed grain/silage end product. Farmers that want a stable hybrid that is still performing exceptionally well across quicker environments should look at *Maximus*. The benchmark in the marketplace.

<b>Plant Type:</b>
<b>102 Days CRM Quick Grain or Silage</b>
<b>Yield Potential:</b>
<b>High end yields with an unbeatable disease package.</b>
<b>Plant Height:</b>
<b>Tall plant with large root structure for high WUE.</b>
<b>Grain Type:</b>
<b>Dent x Dent highly digestible feed grain. High Starch content in grain and silage.</b>
<b>General Comments:</b>
<b>Consistent and high yields under solid inputs.</b>

## PLANTING POPULATIONS

<p><b>Dryland below 600mm</b></p> <p><b>25,000 TO 40,000</b> (SILAGE 30-45 K) ESTABLISHED</p>	<p><b>Dryland above 600mm</b></p> <p><b>40,000 TO 75,000</b> (SILAGE 45-85 K) ESTABLISHED</p>	<p><b>Full Irrigation</b></p> <p><b>75,000 TO 110,000</b> (SILAGE 85-110 K) ESTABLISHED</p>
