

# Titus

Introducing HSR Seeds 78 day silage corn - extremely quick silage maize or grain that fills the void for growers that want to double crop, or plant or harvest out of the key operating window. It is designed principally for the silage producer who wants a quick turnaround with an excellent yielding/quality corn silage for its maturity.

Best grown from Southern VIC through to TAS, SA and WA. Growers seeking the quickest, good yielding, excellent standability and disease tolerant package, should be growing Titus. Producing high quality 'starchy' silage yields. It is the quickest maize on the Australian market. Giving the planning producer the flexibility to achieve his feed production timeline.

<b>Plant Type:</b>
<b>78 Days CRM Quick Grain or Silage</b>
<b>Yield Potential:</b>
<b>Excellent yields with a solid disease package.</b>
<b>Plant Height:</b>
<b>Medium height plant with a great root structure.</b>
<b>Grain Type:</b>
<b>Dent x Flint highly digestible feed grain. High Starch content in grain and silage.</b>
<b>General Comments:</b>
<b>Quick yields that fill a specific purpose.</b>

## PLANTING POPULATIONS

<b>Dryland below 600mm</b>	<b>Dryland above 600mm</b>	<b>Full Irrigation</b>
